

Industrial Electric Mfg.

# The Leading Provider of Custom Power Distribution Systems

# Custom Power Distribution Systems. At Scale.

For 70 years, IEM's grown a strong reputation for product quality and service reliability. We built the power behind Silicon Valley, and we'll partner with you to plan, produce, and deploy what's next - with the flexibility to meet custom technical requirements and a capability to deliver in a big way.

## The IEM Difference

What sets IEM apart? It starts with four key things no other provider can deliver.

- 1 Custom at Scale**  
IEM has both the flexibility to meet unique technical requirements and the capability to deliver on time, at large production scale.
- 2 Proven Power**  
A 70+ year tradition focused solely on power solutions, from helping to build Silicon Valley to helping innovators build what's next.
- 3 Partnership-Geared**  
Industry-leading delivery times, white glove service, and an approach that values long-term customer relationships.
- 4 Solid Innovation**  
A product team that's powered pioneering state-of-the art technology for innovators across industries and markets.

# IEM At-A-Glance

The Leading Provider of Custom Power Distribution Systems

**1.5MM+**

Square feet of production capacity, and growing fast

**15 Core Products**

with countless custom variations

**5 Locations Worldwide**

Silicon Valley, Oregon, British Columbia, Florida, Belgium

**\$1B+**

in annual sales

**10,000+ Projects**

commissioned to date, across tech/data centers, commercial, energy, utilities, healthcare, industrial, infrastructure, and more

**70+**

Years in business—a proven tradition

# Your Partner from Idea Through Energization

IEM delivers custom, state-of-the-art systems at scale by collaborating with you from planning your idea through energization and beyond.

- Ideation**  
Plan flexible, custom solutions with us
- Production**  
Industry-leading delivery times
- Integration**  
System integration/installation support
- Energization**  
Troubleshooting and commissioning
- Support**  
Maintenance and break-fix

## Powering Dynamic Markets and Critical Sectors

IEM's custom distribution systems power everything from stadiums to space centers and beyond. Our proven solutions meet the wide range of requirements across far-reaching industries.

Commercial & Real Estate

Industrial & Manufacturing

Energy & Utilities

Healthcare & Life Sciences

Infrastructure & Public Services

Technology & Data Centers

## Industry Leaders Trust IEM

World-class companies and organizations trust IEM, the leader in power distribution systems, to plan and deliver their most important projects. Below is a small sample of actual IEM partners across key industries and sectors today.

IEM Products:

# Flexible. Scalable. **Reliable.**

Exceed the most challenging requirements with custom solutions at scale, superior quality and reliability, and industry-leading delivery times.

## Low Voltage

- Low Voltage Switchboards UL 891
- Low Voltage Switchgear UL 1558
- Low Voltage Automatic Transfer Switch (ATS) UL 1008
- Low Voltage Fully Integrated Switchboards
- Panelboards UL 67

## Medium Voltage

- VESTA Arc-Resistant Switchgear
- Medium Voltage Metal-Clad Switchgear
- Medium Voltage Metal-Enclosed Switchgear
- Medium Voltage Utility Metering Cabinet
- Medium Voltage Automatic Transfer Switch (ATS)
- Medium Voltage 38kV Switchgear
- Unit Substations

## Integrated Products

- Power Distribution Unit (PDU)
- Remote Power Panel (RPP)
- Walk-in Applications
- Custom Assemblies

IEM's innovative manufacturing process and partnership approach means IEM can handle projects that call for standard equipment, and those with custom requirements and challenging time frames. All phases can move forward in parallel, allowing for easy integration, nimble changes, and shorter cycles.

- Full customization and design flexibility
- Product tested beyond standard limits to ensure long-term reliability
- Component and metering selection options
- Superior enclosures
- Fully rated bus based on density ratings
- Custom powder coat paint line
- All equipment tested to industry standards
- UL/CSA listed; meets ANSI, IEEE, and
- NEMA standards
- OSHPD seismic certification

## The Power to Move Ahead

From our early days in Silicon Valley, to the multi-national company we are today, IEM has grown by innovating to power what people build. Contact our experts to help plan your next project, and learn how IEM is your partner— from idea through energization.
